

SLIM Companion™ Email Manager increases user productivity and provides unique functionality to simplify your work. Upload emails using drag and drop, view emails and attachments in your browser, filter/sort emails by column(s) and attach SharePoint documents to a new email. The App extends the SharePoint ribbon and the context menu's.

Upload emails to SharePoint by dragging one or more emails from your email client directly to your browser. View one or more emails in your browser.

View email attachments directly in your browser.

Attach a SharePoint document to an email with a single click. The tool supports SharePoint Online and is compatible with the latest versions of Chrome, Edge, Opera and Safari.

SLIM Companion Email Manager features

Intuitive user interface

Extends the ribbon and the context menu (...) of the SharePoint modern view

Functionality

Preview emails and attachments in the browser, navigate between multiple emails, and tag emails. Attach SharePoint documents to an email. Supports views and sort order and filters set on the originating page.

Performance

Typical elapse time for viewing an email is 1 s. Optimized performance by using parallel processes and caching. Support for large lists exceeding the list view threshold.

Deployment

Install the SPFx application as a SharePoint App. Support for tenant wide deployment.

Trial

Contact us for a trial license or request access to our demo environment.

Licensing

Price per user or site license for large organizations.
